07501176124

I'm an experienced Web Developer which adept in all stages of advanced web development. Knowledgeable in the user interface, testing, and debugging processes.

Experienced with the latest cutting-edge development tools and procedures. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.

Willing to relocate: Anywhere

Work Experience

Co-Founder and CEO

Harzaan - Sulaymaniyah
January 2017 to Present

A classified ads service for Iraq / Kurdistan

Co-Founder and CTO

Softcode - Leeds, AL
Present

I founded the company with Dr. Lasik who's living in Leeds right now.
We use the company for part-time projects from United Kingdom and other countries

Co-Founder and CTO

Zeyton - Erbil
January 2014 to April 2016

Zeyton was a social knowledge platform that targeted the Middle East audience. We took on the task of competing with the giants and building a knowledge graph of Google's scale. We worked with what is now Amazon Neptune to rebuild www.freebase.com. We traced the steps they took to put together the knowledge of mankind. Freebase is now Google Knowledge Graph. The scale of such a project and graph database requires a scalable front end down to the very configuration of raids—a global network of content delivery network and security to every line of code.

Senior Project Manager

Technology incubator center of UOK - Sanandaj
February 2012 to 2014

Building a website for a new startup that was working on windows software.
